## Thanksgiving

Every family member wrote down a list of things we are thankful for. One common theme clearly stood out -

# Christmas By Vicini

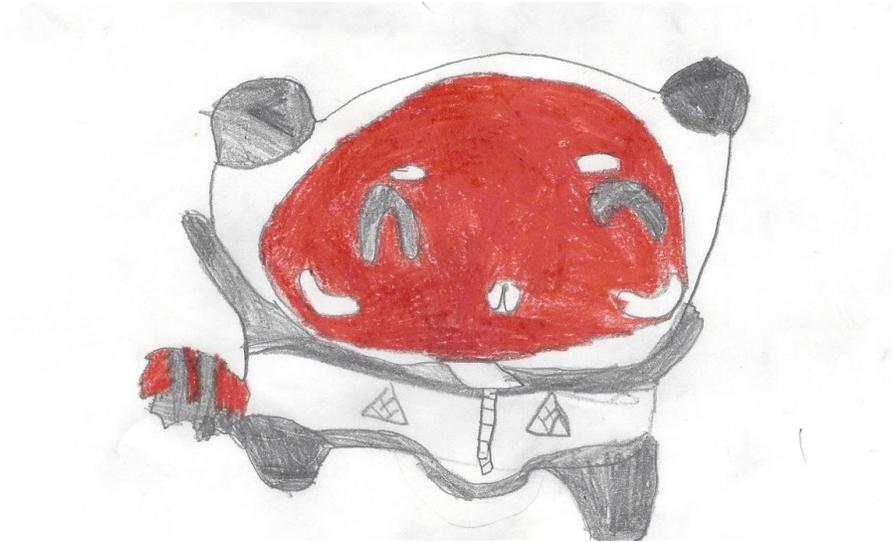

Christmas is a great holiday. All the family members come to your house and the gifts. The stuff I got were:

- A bunch of mandalorian stuff (socks, shirts and lego.)
- Headphones (I'm wearing them right now.)
- Nintendo game chips like ultimate alliance (great game), bomber man (another great game)
- Percy Jackson books.
- A 3D printer

I like Christmas because it's a fun holiday. You also get presents and some family members come over (since COVID-19 my grama or other relatives did not come 😭). My family watched a youtube video from our church about god, Jesus, Christmas and reality. I agreed with a few things and disagreed with some other stuff. We played video games (ultimate alliance) all day! It was fun 😄.

That was my Christmas.

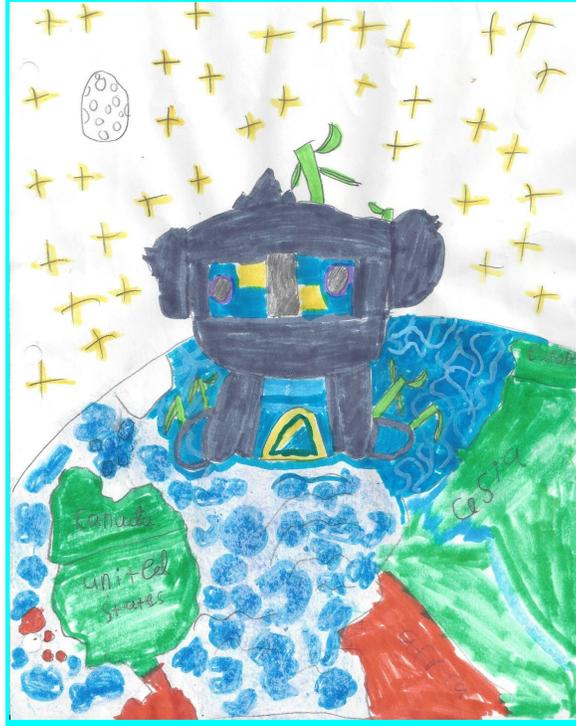

## **What I feel about Christmas by Aqua\_Cookie**

**Well, first of all, Christmas is my all-time favorite holiday. And even in this year's craziness, it didn't seem all that different! I got sick headphones and the "A Wrinkle In Time" book series and even new nintendo games! We got a lot of presents, and had a good time like we always do!**

**Even though I sometimes think of Christmas as a way to receive presents, and gifts, I know it's a holiday to celebrate the birth of Jesus. The savior that**

**came, as a baby! I think that Christmas is a very fun and spiritual holiday, and it brings hope even in this time.**

## How To Use A 3D Printer by Vicini

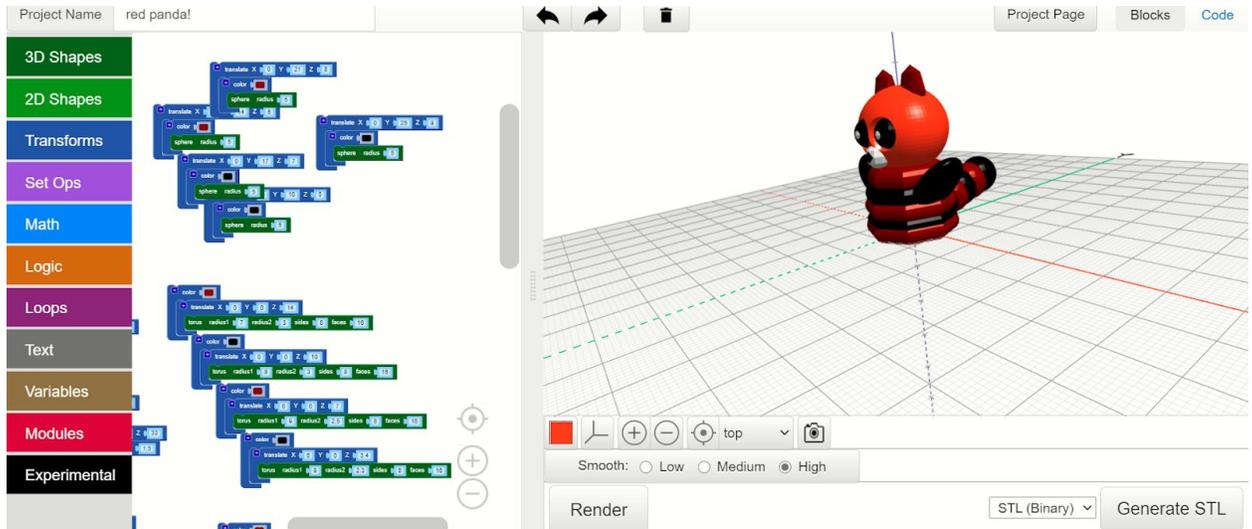

For Christmas I got a 3D printer. I was so happy because I like creating 3D stuff on a

website that's named blocks cad. The 3D printer looked like this:  ye that's it. I

created this little guy:  buy using the 3D printer.

How the 3D printer works:

1. You first have to create a 3D model. This is mine

2. Hook up your computer to the printer.
3. Attach the plastic thread to the holder.
4. Then you tell it to print what you have on your computer.
5. It will melt the plastic and start making layers of plastic.
6. When it stops you have your thing you wanted to create!

Me and my brothers are going to print more stuff in the future. The little red panda guy is the only thing we have created so far.

My dad is printing a 3D creation that my brother made.

Sometimes the print might not come out right so you just have to try again. What to do if it does not come out right:

1. First make your model bigger.
2. If that does not work try (if you can) turn the smoothness to high.
3. Check on G-file, the file that controls everything the 3D printer does.

## DoLittle movie review by Aqua\_Cookie

Dolittle the movie was a really interesting movie! It's humorous, and also tense! It's about a man named Dolittle, who had the unusual ability to speak to animals! In the backstory, it tells how Dolittle, and his love, Lily lived in a huge mansion. Lily was a very courageous explorer. On one never-forgetful day, Dolittle let Lily go on a very dangerous journey, and she never returned. Dolittle locked the doors of the mansion for no one but him and his animals to live inside.

But one day, a boy who belonged to a family of hunters, but loved animals, brought an injured squirrel to Dolittle to help it. A English girl arrives with news that the Queen of England has fallen very ill. Dolittle is convinced to help the queen and goes to examine her, with the boy. The team figures out that she was poisoned by a very dangerous poison. There is only ONE antidote, (it's a rare fruit) and it is very hard to get. The team and the boy adventures out to

find the fruit. During the very dangerous quest, the boy starts to learn to speak to the animals. But Dolittle, the boy, and the animals encounter an enemy. He threatens the life of the Queen. The race to the fruit begins.

Watch to find what happens!

## Diary Of A Wimpy Kid Dog Days Movie Review by MIT\_Aqua

Diary Of A Wimpy Kid was a funny movie. I liked it but I think the author is trying to send a message about not lying. When you lie a lot it'll become a habit and the truth will come out.

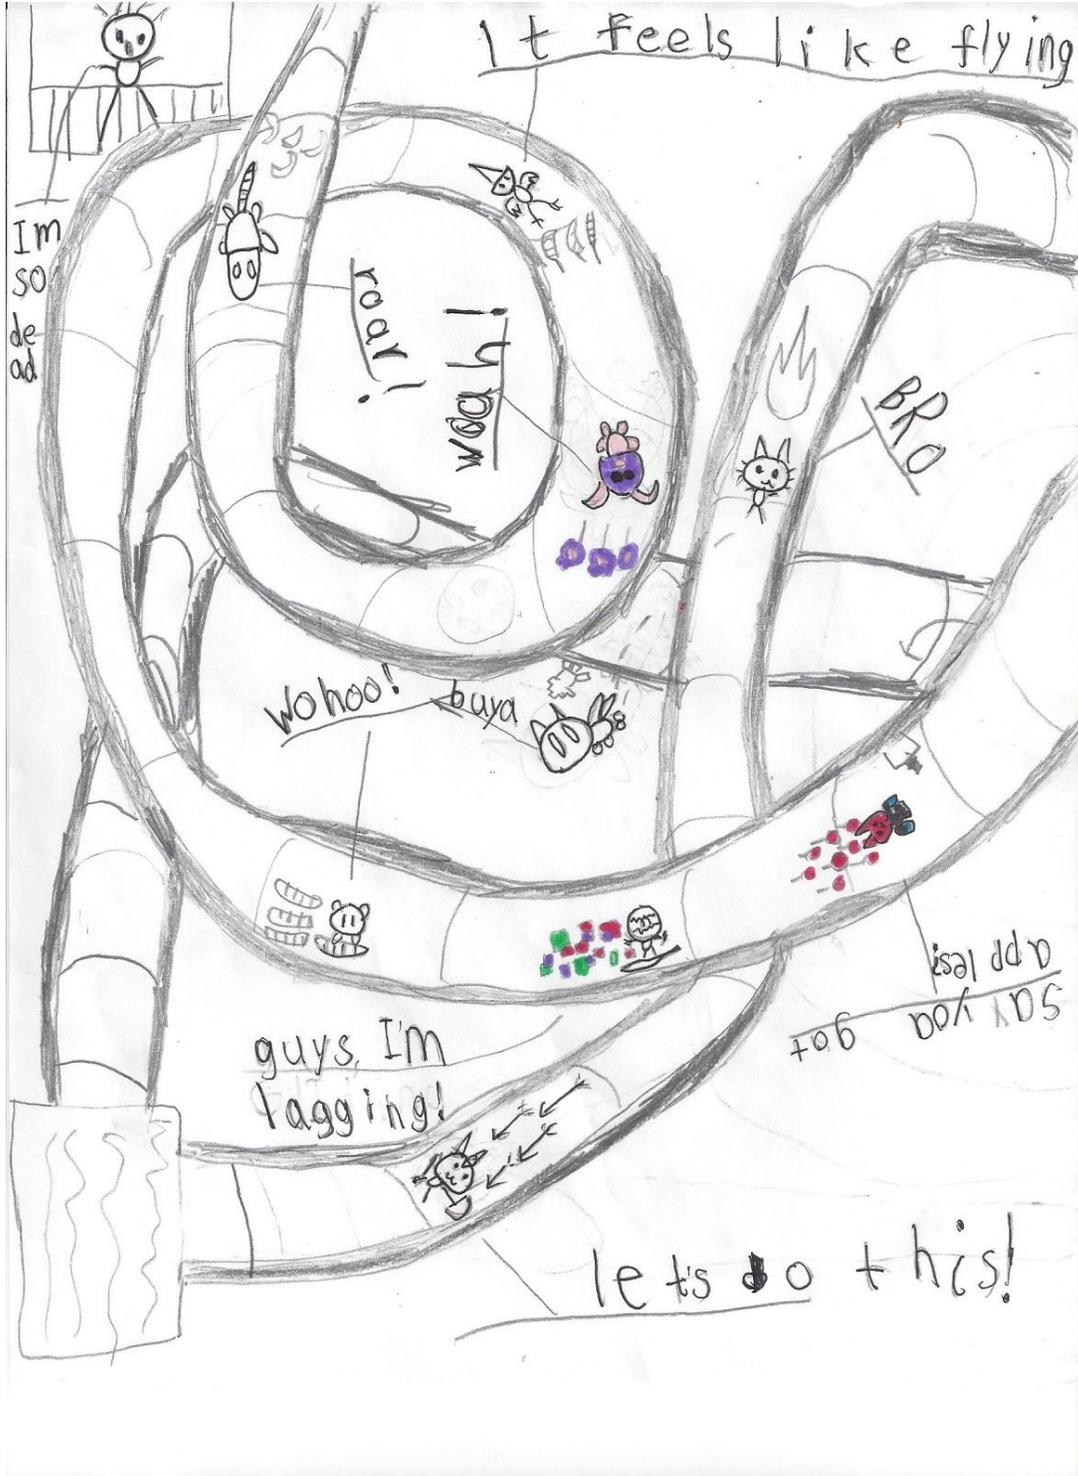

Greg lied to his parents and said he got a job. Then his dad found out which was bad. His dad was disappointed in him. Also he lied and said he liked tennis. But he did not. and that's another lie. That's bad too. Because he does not like tennis and he lost the tennis match. He said he played football but all he did was playing video games. In the end all video gaming cords were taken out.

## What 2020 Feels Like

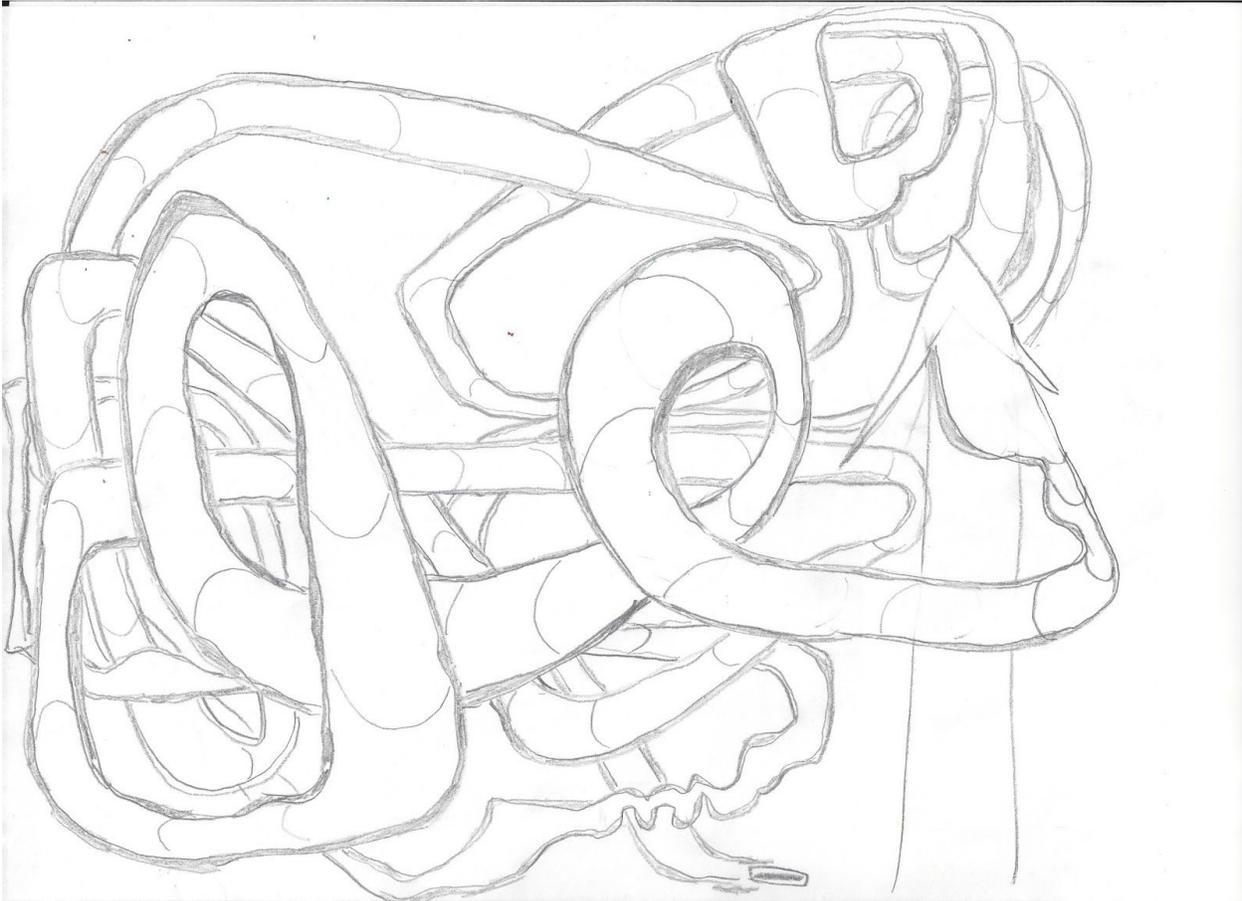

A year full of surprises and turns, just like a crazy slide...

or like this one...

**One more....**

**We rode it and came out like this:**
